No ads. No sponsors. Get real profits from your audience's activity.

No ads. No sponsors. Get real profits from your audience's activity.

Problem

Telegram creator income has been very limited until now

Telegram creators rarely generate profits through fundamental restrictions:

Income from advertising is very small

Revenue from ads to large audiences is minimal.

Sponsorship agreements are unstable

Sponsorship agreements are unstable and often short-term.

ODDZ Solutions

Platform Overview

ODDZ is a licensed prediction market platform based on the TON blockchain and operates as a Telegram mini app.

Empowering Content Creators

Content creators can immediately launch prediction markets related to the events they are actively discussing with their audiences.

Generating Revenue

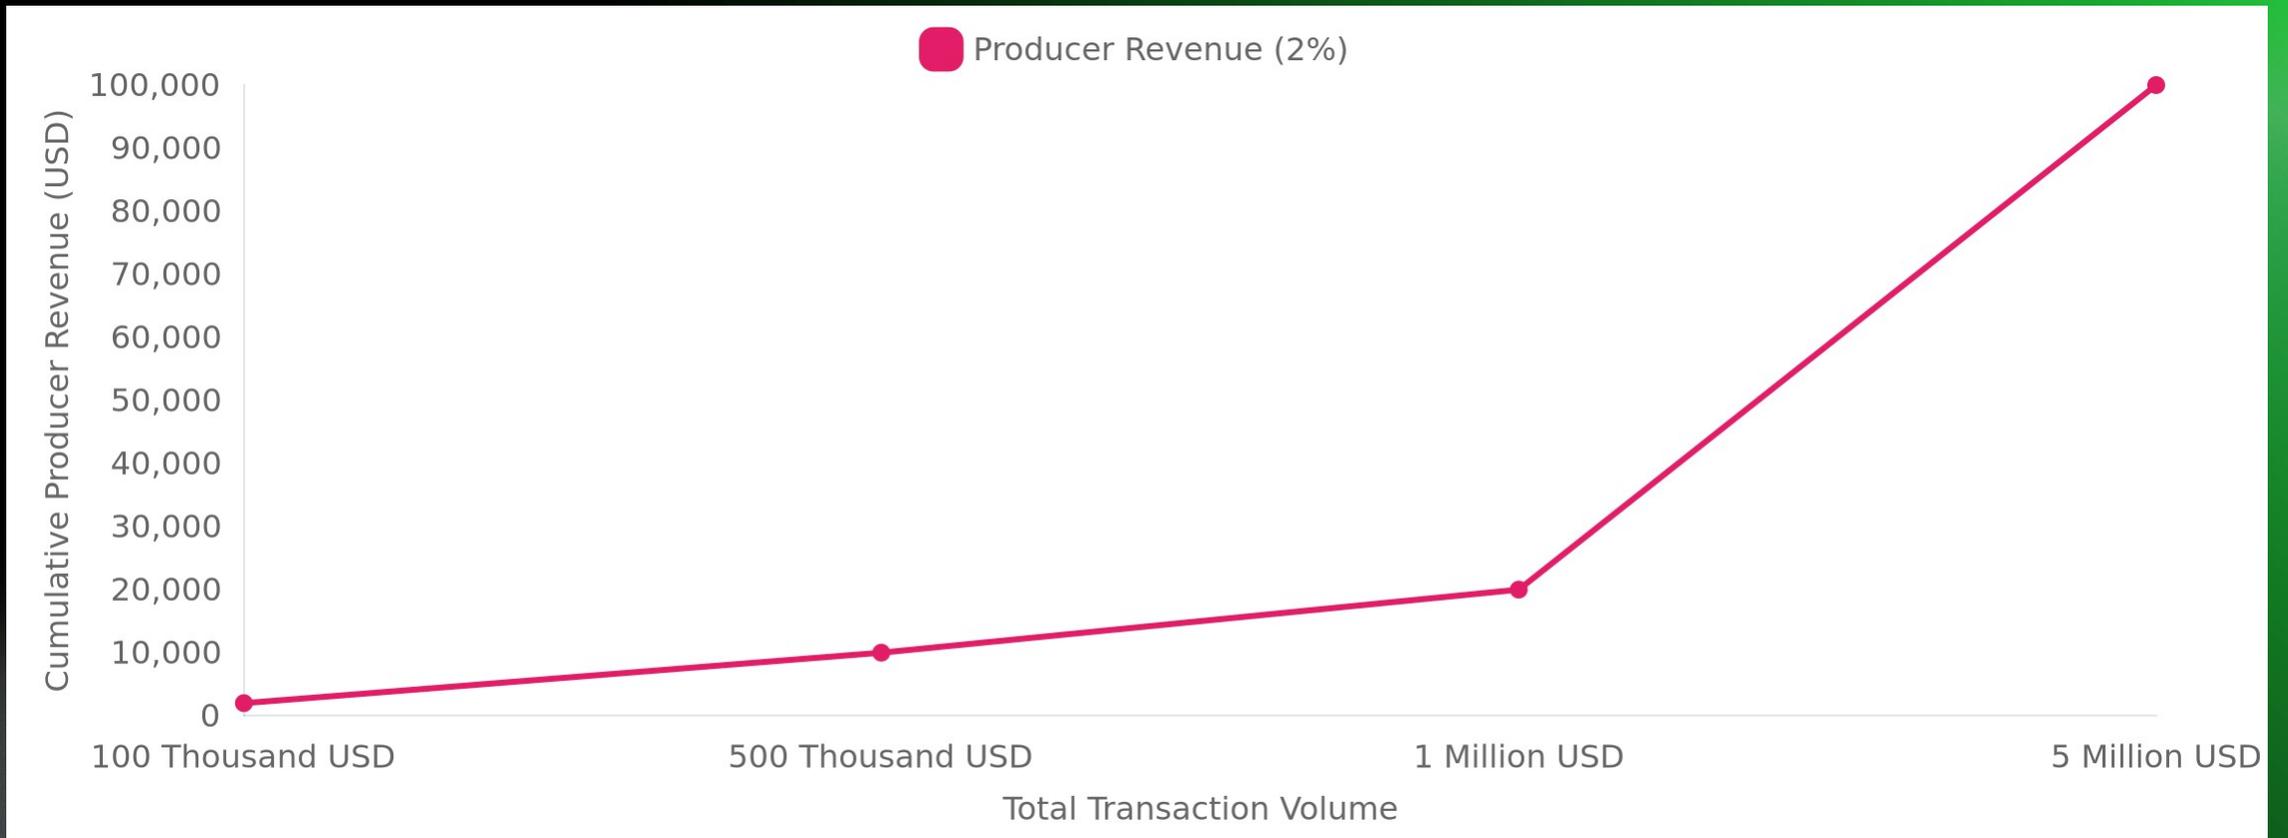

Every transaction made in this marketplace generates revenue for content creators, linking monetization with engagement.

User Experience

This seamless integration generates stable revenue without disrupting the user experience.

Manufacturing Economy

Technology and Trust

Fast transaction processing

TON blockchain provides fast transaction processing, extremely low fees, and supports an easy user experience.

Decentralized market solution

The market solution is decentralized and automatic, eliminating the need for manual intervention from producers.

Providing a trustworthy environment for producers

Producers never control the funds at any time, ensuring a fully trustworthy environment, guaranteeing transparency and reliability of revenue flow, and without operational risk.

Exclusive launch access

Invitation-only visits

The first month is for invitation-only visits for creators.

Reserve your spot now

Reserve your spot now, get direct visibility on the panel, and leverage your leadership advantage on the Telegram channel.

Family always wins

Family is always the winner. Be family.
